RURAL DISTRICT COUNCIL OF DISLEY

Annual Report - 1964.

Mr. Chairman, Madam and Gentlemen,

The population at mid-year 1964 as estimated by the Registrar General was 3790 which is an increase of 270 over the estimated population at mid-year 1963. There were 65 live-births of which 3 (4.6%) were illegitimate. There were 4 still-births and the still-birth rate was 58.0 per thousand live and still-births

There were 45 deaths from all causes and these included the deaths of 3 infants under the age of 1 year; there were no infant deaths in 1963. Both the infantile death rate and the still-birth rate were much higher than in the previous year and considerably above the corresponding rates for England & Wales. However because the number of births in a year is small, both these rates are liable to fluctuate very considerably from year to year without any significant underlying cause. It can therefore be misleading to make a straight comparison with other years or with national rates.

At the beginning of the year there was a small outbreak of measles, otherwise the incidence of infectious diseases was extremely low. There was 1 new case of pulmonary tuberculosis notified in 1964, this compares with 1 in 1963 and 2 in 1962. There was no new case of non-pulmonary tuberculosis.

All premises affected by the Offices, Shops and Railway Premises Act were required to be registered by 1st May, 1964 and the main provisions of the Act came into force on 1st August, 1964. 11 premises have been registered and inspections are proceeding.

In conclusion, I should like to thank the Chairman and Members of the Health Committee for their continued interest in all health matters. I should also like to thank the Officers of the Council for their valuable help throughout the year.

I remain,

Yours faithfully,

T.W. BRINDLE.

Medical Officer of Health

253, London Road,  
Hazel Grove,  
Cheshire.

## SECTION A

Area in acres ... ..	2,208
Population Census 1951 ... ..	2,863
Population Census 1961 ... ..	3,170
Population Mid Year 1964 (Registrar General's Estimate) ...	3,790

Rateable Value (1st April 1964) ... ..	£154,554
Product of a Penny Rate (estimated) ... ..	£628

### PHYSICAL CHARACTERISTICS OF THE AREA

The area is hilly in character with a wealth of pleasantly wooded slopes rising from a level of 400 ft., at the River Goyt, to the highest point of 1,018 ft. above mean sea level. On the northwest boundary, the residential area of Jacksons Edge follows roughly the line of the 700ft. contour.

## SECTION B.

### GENERAL PROVISION OF HEALTH SERVICES IN THE AREA

Laboratory Facilities are available at the Public Health Laboratory at Withington Hospital.

The following services are provided by the Local Health Authority and administered by the North East Cheshire Divisional Health Committee.

Ambulance Facilities A 24 hour Ambulance Service is available, being provided by the Stockport Corporation and Derbyshire County Council on an agency basis. In addition, sitting case ambulances are available.

Nursing in the Home. There are in the area one District Nurse who undertakes general nursing and one midwife.

Home Help Service. Home helps are available in cases of illness, confinement old age, etc. Home helps have been employed during the year in the following cases in Disley.

	<u>No. of Cases</u>
Chronic Sick including aged & infirm ...	7
Confinements ... ..	2
Acute Illness ... ..	<u>2</u>
	11

Infant Welfare Centres. Sessions are held fortnightly at the Council Offices. Attendances during the year were as follows:-

Centre Disley	New Cases	Total Attendances		
	0 - 1 yr.	0 - 1 yr.	1 - 2 yrs.	2 - 5 yrs.
	65	777	98	116

### Diphtheria Immunisation, Whooping Cough and Poliomyelitis Vaccination.

Special arrangements are made for immunisation to be performed at the end of each welfare session. In addition immunisation is carried out free of charge by general medical practitioners at their surgeries. An annual visit is made to the one primary school in the district for the purpose of giving diphtheria booster injections.

### Chiropody Service

Financial help in obtaining chiropody treatment is given on medical recommendation to persons aged 65 years and over, persons registered as physically handicapped and expectant mothers. Treatment is given by a chiropodist chosen by the patient.

### Club for Physically Handicapped Persons

A social club for physically handicapped persons meets every other week at Hazel Grove. Transport is provided in the majority of cases by members of the W.V.S. In addition a handicrafts section meets once monthly.

Welfare Foods

Welfare foods are on sale at the Council Offices, Disley from Monday to Friday and at the Child Welfare Centre on the 1st and 3rd Tuesday afternoon every month.

Services provided by the Regional Hospital Board

Hospitals. There is no hospital within the Rural District, and patients from this area are admitted to hospitals in neighbouring districts.

Maternity cases requiring hospital accommodation are also admitted to hospitals outside the area. Where necessary, infectious disease cases other than smallpox, are admitted to the Stockport Isolation Hospital and Monsall Hospital for infectious diseases. Facilities for smallpox cases are provided at the Ainsworth Smallpox Hospital, near Bury.

Tuberculosis and Venereal Diseases. Special clinics for the diagnosis and treatment of tuberculosis and venereal diseases are held at the Chest Clinic, Stepping Hill Hospital and St. Thomas', Hospital, Flint Street, Stockport, respectively.

## SECTION C.

### GENERAL SANITARY CIRCUMSTANCES

1. Water. The area is supplied by the Stockport and District Water Board. The Board consists of representatives of the Stockport County Borough Council, the Urban District Councils of Bredbury and Romiley, Marple, New Mills, Alderley Edge, Cheadle and Gatley, Hazel Grove and Bramhall, Whaley Bridge and Wilmslow and the Rural District Council of Disley ("the constituent councils") and the Cheshire County Council.

Most of the houses in the Disley Rural District are connected to the mains but a few farms and isolated houses situated on high ground are supplied by natural wells and springs, a few having boreholes. The situation of these premises and the physical characteristics of the land render the cost of laying mains prohibitive and an almost impossible task.

The water supplied to the district is chemically treated, filtered and chlorinated, it is subject to frequent bacteriological examination and chemical analysis by the Board and has proved satisfactory in quality and quantity. Fluoridation is not carried out. The main road and lower areas of the district are supplied from Kinder and the higher part of the district from the Goyt Valey Supply. Two samples of mains water drawn from taps in a house and a school were submitted to the Public Health Laboratory, Withington Hospital, for bacteriological examination and were found to be satisfactory. Two samples drawn from taps at a hotel with its own source of supply were also submitted to the Public Health Laboratory and were found to be satisfactory.

The Engineer and Manager of the Stockport and District Water Board has reported as follows:-

" The water supplied to the Disley Rural District was derived  
"partly from the Kinder supply and partly from the Goyt Valley  
"High Level supply.

#### "BACTERIOLOGICAL EXAMINATION

" Forty-six samples on each supply (i.e. a total of 92 samples)  
"were taken during the year, all of which gave the following results:-

" Probable No. of coli-aerogenes per 100 mls. of water .... 0

#### "CHEMICAL ANALYSIS

" Ten samples were taken on each supply during the year. As examples  
"of typical analyses the following results taken on the 19th October,  
"1964 are submitted:-

# SECTION C - Continued

## GENERAL SANITARY CIRCUMSTANCES - (Continued)

<u>CHEMICAL ANALYSIS</u>	<u>KINDER</u>	<u>GOYT VALLEY</u>

Lead as Pb taken up in second 24 hours . . . . .	0.17	0.43

Both Reports - This water is very satisfactory.

2. Drainage and Sewerage The greater part of the district is sewered and two sewage disposal works are owned by the Council. Most houses are connected to the sewers and those properties which are not are in isolated positions.

3. Rivers and Streams The River Goyt forms the northern boundary of the district and the Bollin Hurst Brook is the south-westerly boundary. The effluents from the Councils Waterside and Coppice Sewage Disposal Works discharge respectively into these.

### 4. Sanitary Accommodation

Water Closets . . . . .	1,351
Privies . . . . .	13
Pail Closets . . . . .	21
Ashbins . . . . .	1,706

5. Public Conveniences - The Council owns one building near Ram Square, Disley, which contains sanitary conveniences for both sexes. Cleansing of the premises is carried out each day by a part time officer. Coin operated locks are fitted to the doors of the W.C's, there are no turnstiles.

## SECTION C - Continued

### GENERAL SANITARY CIRCUMSTANCES - Continued

6. Public Cleansing A direct labour refuse collection service is operated by the Council. In February 1964 an incentive bonus scheme was put into operation whereby the one 3 - man team comprising loader/driver and two ashbinmen is paid an incentive bonus of 2d. per dustbin in excess of a target of 1,000 bins collected in 126 man hours, the target varying pro rata with the total number of hours actually employed on refuse collection. Formerly the collection period was fortnightly and since the inception of the bonus scheme to the 28th December, 1964, the average has been 10.4 days for the whole of the district and the average bonus paid to the team has been £2. 7. 5. per week.

Trade refuse is collected weekly for which an appropriate charge is made. A new dual-tip KARRIER BANTAM diesel engine 12 cubic yard end loading refuse collecting vehicle was put into use in May 1964 in place of a KARRIER BANTAM side loading 7 cubic yard vehicle, the increased load carrying capacity of the new vehicle has reduced the daily number of journeys to the refuse tip.

Household refuse is disposed of by controlled tipping at the Council's tip in Greenshall Lane, Disley. After discharge the refuse is raked over and covered by a layer of overburden sand and the face of the tip is also dressed with sand or with surplus excavated material from building sites. General dressing of surfaces is carried out with a hired bulldozer.

7. Rodent Control A Rodent Operator is employed on five half days in each alternate week. Regular inspections and treatments of the sewage disposal works and refuse tip have been carried out and surveys for the detection and eradication of rodents in other parts of the district. 61 infestations of private property, 3 local authority and 4 business premises were treated. There were no major infestations.

8. Smoke abatement Observations on two factories were made and informal action was taken in one instance which resulted in the satisfactory reduction of the output of black smoke.

9. Camping Sites There is one permanent camping site in the district which is occupied during the summer months only by members of a National Girls' Organisation. The camp is well managed.

10. Animal Boarding Establishments Act, 1963. One application for a renewal of Licence was received and an inspection of the premises was made in company with an officer of the Royal Society for the Prevention of Cruelty to Animals.

11. Offices, Shops & Railway Premises Act, 1963. The Number of premises registered during the year was eleven general inspections of three premises were made.

## SECTION D.

### HOUSING

1. New houses During the year the erection of 17 private houses was completed and at the 31st December, 1964 there were 21 private houses in course of construction. The Council carried out no new housing development.

#### 2. Housing Improvements

Standard Grants Standard grants under the provisions of the House Purchase and Housing Act, 1959 were approved in respect of applications applicable to 10 houses. Works in connection with 12 houses were completed during the year, the following amenities being provided in addition to those already in existence:-

Fixed bath ...	10
Wash-hand basin ...	10
Hot Water Supply ..	10
Water closet in dwelling ...	7
Satisfactory facilities for storing food ...	11

Descretionary Grants Two grants were approved and the work on one house was completed.

SECTION E  
INSPECTION AND SUPERVISION OF FOOD

1. Slaughterhouses Act, 1958. There is one licensed slaughterhouse in the district, situated at Potters Hey, Newtown, and it complies with the requirements of the Slaughterhouses (Hygiene) Regulations, 1958 and the Slaughter of Animals (Prevention of Cruelty) Regulations, 1958

2. Slaughter of Animals Act, 1958. The following licenses were issued:-

Renewal of Licence.....2	} To slaughter or stun cattle
New Licence.....1	} sheep and swine.

2. Meat Inspection. All animals slaughtered were inspected by the Council's Meat Inspector, as follows:-

Animals Inspected	1964	1963	Meat Condemned
Cattle	1286	953	42½ livers. 1 heart. 1 carcase
Sheep & Lambs	6832	4542	211 livers. 1 carcase. 11 plucks.
Pigs	4	10	
Calves	1	-	
	8123	5505	

3. Food Inspection. All food shops have been regularly inspected and advice given where necessary on the handling of food and the maintenance of premises.

4. Food Premises in the District

SECTION E - Continued

INSPECTION AND SUPERVISION OF FOOD - Continued

5. Food Sampling. Sampling of food in the district is carried out by the Inspector of Weights and Measures Department of the Cheshire County Council.

Typhoid - Aberdeen Arising out of the outbreak of Typhoid at Aberdeen visits were made to all canteens, Hotels, Public Houses, Clubs, Schools and shops for the purpose of ascertaining whether there were any stocks of the corned beef suspected to be the cause of the outbreak. Three 6 lb. unopened cans of the suspect corned beef were located and withdrawn from sale. One half can located was voluntarily surrendered, this was submitted to the Public Health Laboratory and the following report thereon was received:-

Corned Beef	-	No growth of <u>Salm. typhi</u> or
Donald Cook Industria		other organisms of the
Uruguay (5)		Salmonella Group.

Potato Crisps A complaint from a purchaser that discoloured potato crisps had been supplied by a retailer was received and on investigation was found that the discolouration was a natural colour present in certain types of potato.

6. Food Poisoning . No cases of food poisoning were notified during 1964.

7. Milk. Reports have been received from the Medical Officer of Health, Cheshire County Council, on 143 samples of milk obtained in this district. 137 of the samples satisfied the prescribed tests. Subsequent tests on 6 samples which did not satisfy the prescribed tests were satisfactory.

<u>Brucella Abortus</u>		
Sampling done by Cheshire County Council in the Disley Rural District during 1964		
	Total Submitted	Number Brucella Positive
Bulk Samples	37	1
Dealer Samples	1	-
Individual Cow Samples	8	-
Total	46	1

There were at the end of 1964 five dairy herds in the district from which milk was sold raw to the public.

8. Ice Cream. Eighteen samples of ice cream purchased from local retailers were submitted to the Public Health Laboratory and on being subjected to the methylene blue test were not decolourised at the end of 4 hours, all coming within provisional Grade 1.

# SECTION F

## PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASES

- (a) General Number of cases of Infectious Diseases notified during the year:-

Measles ..... 51  
Scarlet Fever ..... 2

- (b) Analysis of Notified Infectious Diseases

Disease	Under 1	1 -	2 -	3 -	4 -	5 -	10 -	15 -	25 & over	Total
